VOL. XXXVII — SONOMA, SONOMA COUNTY, CAL., JULY 24, 1915 — NO. 1

POST OFFICE AND BULOTTI BUILDING SOON READY

The handsome two story brick building, the property of Fred Bulotti, is rapidly nearing completion, and will be ready for occupancy immediately after the first of the month.

John F. Picetti, of the Sonoma Valley Furniture Company, is congratulating himself and firm on having secured the spacious storeroom. But few business houses in the county have finer opportunities for display than are afforded by these elegant quarters.

The Bulotti Buiding is certainly a substantial improvement and an ornament to the city of which its citizens are justly proud.

Our residents, too, are equally proud of Sonoma's new postoffice. No country town, and indeed but few fair-sized cities, can boast of headquarters for Uncle Sam's postal service of more artistic architectural grace or finer equipmen . Especially is this true of the latter. Mr. Adler has brought to bear his utmost skill in the finishings and furnishings, and his accomplishment proves him a master of his craft.

Beyond a doubt, the new office will be accepted by the postal authorities, and turned over for occupancy by August 1st.

GOUGH-O'BRIEN CONTEST COMPROMISED

The suit of Mrs. Margaret Gough, of this city, against Miss Nellie O'Brien, of San Francisco, et al., involving distribution of the property of the estate of their father, the late John O'Brien, who had extensive property interests in this valley, has been settled out of court. Friends of the sisters, and of the former well-known Sonoma Valley pioneer, learn with satisfaction that an amicable settlement has been made, and a legal entanglement in court avoided. Attorney Wm. F. Cowan, of Santa Rosa, represented Mrs. Gough.

FORD OWNERS GIVEN REFUND

On Friday of last week, the Ford Automobile Company announced a refund of approximately $15,000,000 to the owners of Ford automobiles wi o have purchased their machines since Aug. 1, 1914. On that date the Company announced that if 300,000 automobiles were sold during the ensuing year, each purchaser would receive a refund of $40 to $60. The mark was reached last week. Busby & Coates are local agents for the popular car.

HOW SKIDDING OF AUTOS MAY BE AVOIDED

With the fact in mind that the Sonoma Valley owners of automobiles are numerous, with others being added to the list weekly, we give space to the foregoing paragraphs, taken from the Santa Rosa Press Democrat, believing them to be timely and valuable suggestions, especially to the inexperienced driver:

"Many a motorist has had hi car brought to a halt against a telephone pole or skidded into a ditch because he has not taken the necessary precaution before he ventured out on the road. In other words, not learning just what to do in case his wheels started to skid.

Speeding is dangerous, carelessness causes many accidents, but there is no question but that more serious accidents occur because of skids or muddy roads or slimy pavements than for any other reason.

"The fundamental principle which should be remembered, is that the wheels should be kept straight. When the rear end of the car begins to slide, the front and rear wheels no longer track and it is impossible for the tires to grip. The moment the driver feels the sickening slide begin, he should twist the steering wheel quickly and bring the front and back wheels in alignment. The tires will get a grip on the road and, in most cases, skidding can be prevented.

Once a skid is started, it is impossible for the best and most experienced driver to stop it. On roads which are muddy, or on pavements which are slippery, the motorist should either have chains on or a very good anti-skid tire. In cities where the streets are continually sprinkled, the motorist should always have his rear wheels at least equipped with anti-skids.

Some anti-skid tires are much more effective than others in preventing skidding—that is, some grip the road much harder and more quickly than others in case of an emergency.

There are times when chains should be used, but under ordinary circumstances anti-skid tires are a sufficient protection.

In no case, however, should a motorist drive with others in his car unless he is prepared for every emergency.

There are still about 160 on the waiting list at the Sonoma State Home and they will be accommodated as soon as space can be provided. At the next meeting of the Board of Managers, the sites will be selected for the new buildings for which appropriations were granted by the last Legislature. The funds for the work will not be available until after August 7.

FRED FOUTZ MEETS WITH PAINFUL INJURY

Fred Foutz had a narrow escape from serious injury, Thursday of last week, and he is counting himself a very lucky man.

Fred has been manipulating the oil sprayer used in this district for the laying of dust on suburban roads. On crossing the Southern Pacific track, in the vicinity of Oak Grove, a short turn resulted in the overturning of the pond'rous oil receptacle, which was more than half full of the fluid.

When the sprayer went over, the right foot of Mr. Foutz was pinioned beneath. The oil, as the majority of our readers are aware, is heated to the boiling point for distribution, and was still at extreme temperature. The hot fluid commenced to saturate the imprisoned leg, rendering Mr. Foutz's condition more painful.

He still held the lines over his horses, and finally succeeded by persistent persuasion of the faithful animals in their moving the great mass sufficiently to allow the extrication of his foot.

The member was so severely crushed as to necessitate its encasement in plaster caste, and Mr. Foutz is now quite fortunately able to move about slightly with the assistance of crutches. Dr. A. M. Thomson was the attending surgeon.

CHILD HAS THRILLING AUTO RIDE

Yvonne, the pretty, three-year-old daughter of Mr. and Mrs. A. Roquette, of the Sonoma French Laundry, had a thrilling experience, Thursday evening of last week.

Dr. Thomson had just driven his big Hudson into the roadway of his yard. On leaving the car, the doctor threw the gear in reverse. Little Yvonne, meanwhile, decided she'd take a joy ride—not a "really truly" one, just a "make-believe." Hopping in, the child undoubtedly set the coil on the battery and touched the spark, and the engine being hot the car started, moving backward out of the yard, straight across the street onto the sidewalk fronting the Expositor office. The resistance given by brake and curb killed the engine very fortunately, thus averting what would otherwise have proved a very serious accident, as the full power of the gas and spark were turned on.

AGRICULTURAL FAIR TO BE HELD IN SEPTEMBER

The date for the Sonoma Valley School Children's Agricultural Fair has been set for Friday and Saturday, September 3rd and 4th, at the High School.

Like last year, many prizes and premiums will be offered for exhibits of vegetabless, fruits, flowers, cooking, sewing, poultry and live stock.

The literary program will consist of lectures by professors from the Agricultural College of the University of California on subjects that will be interesting and beneficial to both old and young. A special feature will be a lecture and demonstration in stock judging by Professor Bryant, of the Department of Animal Husbandry.

Everyone is urged to bring exhibits and space will be provided for same, but only articles entered by children eighteen years of age and under will be judged.

The School Children's Fair is a worthy enterprise and should be encouraged by all.

SCHUMANN RESORT TO HAVE OPENING

A genuinely enjoyable time is looked forward to at the opening of Schumann's family resort tomorrow (Sunday). The event marks the completion of a large, open-air dance platform, and henceforth patrons of this nicely-conducted place are insured indulgence in the popular diversion.

Schumann's Family Resort is located at Buena Vista, near the station, and is one of the most reputable hotels in the valley. At noon tomorrow a special dinner is to be served, and throughout the afternoon, the Buena Vista Quartette will render selections, pleasantly interspersing dances. Ice crea[illegible]

RECKLESS DRIVING OF AUTOS SHOULD BE STOPPED

Talk about reckless driving of an automobile, this beats the limit and if the man at the wheel is arrested, as he undoubtedly will be, it being known that he hails from Petaluma, at least Officer Ragain has information to this effect—let the court have the say of what should be done.

A man at the wheel in an automobile near Fetters' Springs in the Sonoma Valley on Sunday night collided with and knocked a machine off a bridge, and continuing his recklessness struck another automobile and sent it into the ditch, and then struck a horse and buggy and upset them. The fellow still kept on going and did not stop to see what damage had resulted. He is the kind of fellow that should be punished and that severely.—Santa Rosa Press Democrat.

While we understand that the extent of the damages inflicted by the reckless auto driver were exaggerated in the above, yet enough of it is true to warrant the criticism made, and of "something doing" on the part of the police.

It is just about time for the law to intervene and call a determined halt in the wild recklessness with which automobiles are driven. So regardless of speed laws have motorists become, that machine traffic is a continual daily and nightly menace to public safety, and the extreme laxity on the part of county officials in enforcing the laws to which such offenders are ameniable justly deserves the severe criticisms oonstantly meted out.

It is a criminal offense for a man to drive a car when in a state of intoxication, and yet this is a regular occurrence, with actually no more consideration given the appalling offense than if such a law were not on the statute books.

Under present conditions, the pleasure of motoring is marred for many persons by the feeling of [illegible] and the necessity

NEW TEACHERS FOR SONOMA VALLEY HIGH SCHOOL

At the meeting of the Board of Trustees of Sonoma Valley Union High School, held Monday of this week, the following teachers were elected to fill the recent vacancies in the High School faculty:

Miss Lillian S. Hyde, Stanford University, Domestic Science and Home Economics.

Miss Iva E. Tower, University of California, Commercial Subjects and Freehand and Mechanical Drawing.

Maurice H. Tracy, University of California, Spanish, History, Bookkeeping.

Richard W. Borst, University of California, English, Latin.

Principal Maurice H. Rowell will continue to teach the Science and Mathematics.

The Sonoma Valley Union High School will reopen Monday, August 23rd.

Owing to the increasod enrollment in the school, the Board of Trustees have found it necessary to put up a two-room building for the Domestic Science Department, which will relieve the congestion in the main building.

MARY PAGANI IS CALLED BY DEATH

Sorrowing regret attended the passing of Mary, the loved daughter of Mr. and Mrs. Felix Pagani, who for over thirty years have been respected residents of the Glen Ellen district.

The death of the young girl occurred Tuesday, July 13th, at Los Angeles, whence she had gone for the benefit of her health, and although a sad blow to family and friends, yet the summons of the death angel brought welcome rest to the pain-racked, girlish body. Her illness covered a period of two years.

Mary was not quite sixteen years of age, having been born September 22, 1899. All of her short life was spent near Glen Ellon, on the home farm place. The circle in which the fair child was so dear is now shrouded in gloom because of the vanishing of the sweet, patient face, and sunshiny, childish presence. Deep sympathy is extended the bereaved parents, sisters and brothers.

The funeral was held from St. Francis' Catholic Church, Sunday afternoon, at one o'clock. Harold and Shirley Weise, Will and Fred Venton, Granville Bishop and Wesley Brand served as pall bearers, and the remains were laid to rest in Mountain Cemetery. Her grave was covered with beautiful floral tributes.

DARING FEATS OF HORSEMANSHIP ON LOCAL TRACK

Another "Big Wild West Show" on the Sonoma Race track tomorrow afternoon, when there's to be a wonderful, awe-inspiring exhibition!

According to the big posters—and knowing something about the skill of the participants the veracity of the statement will be unquestioned—"The greatest riders and tamers of outlaw horses in the world will give an exhibition of daring and fearless feats of horsemanship."

Bucking-horse riding, bull dogging long-horned Texas steers from the back of a running horse, relay, pony express and Roman races, the riding of bucking bulls, and all sorts of other "dare-devil" stunts will be pulled off.

The show starts at 2:30 P. M., and the price of admission is two bits.

All lovers of equine sports, and their number in this valley runs into figures quite astonishing, are looking forward to the event with keen zest.

NEW DWELLINGS ARE BEING ERECTED

Out on the Snyder Tract two comfortable residences are being erected, and are well along in the course of construction.

Contractor Wm. Saunders has in hand the building of the E. Bertolotti house and barn.

The other home is that of Phillip Burg, who came to this valley some time ago from San Francisco.

A. W. Adler has the contract for furnishing the mill work and other supplies for both structures, which will be modern, attractive bungalows.

STANDARD SIZE FOR BREAD LOAVES FIXED

The Board of Supervisors at their final session Saturday morning before adjourning for the month, passed a resolution fixing the legal size of a loaf of bread at twelve ounces avoirdupois, and making it a misdemeanor to make, offer for sale or sell a loaf of bread of less weight or multiples of twelve ounces within Sonoma County. The law will be effective on and after August 21.

Jack Poulson and Richie Rahwyler spent a few days of the week in the Bay City, taking in Exposition sights.

OUR BIRTHDAY

THE SONOMA INDEX-TRIBUNE, with its issue of today, enters upon its thirty-seventh volume. The anniversary is a day of memories in the old "print shop"—a day of saddened, regretful memories, because its chief, its steady, capable pilot for over thirty years, has within the twelve-month been consigned to his eternal resting-place in God's peaceful acre on the hillside, overlooking the valley to him so greatly beloved.

To old-time readers—and there are many on the list—who, in a measure, have helped to shape its destiny, this birthday of Sonoma's oldest newspaper is indeed a time for retrospection.

To old-time readers, the years agone will today in memory come treading back from out the misty past—the many years when Harry Hale Granice lived and worked amongst our people: sending weekly broadcast through the Valley of Sonoma an assurance of his fidelity to its interests, of his loyalty as a citizen, and of his earnest endeavor to build a newspaper that would endure.

Twenty years ago, the Index-Tribune contained the following editorial, brief, but strictly to the point: "The Index-Tribune is sixteen years old today, and enters upon a new volume as one of the substantial fixtures of Sonoma Valley."

That declaration stands a verified fact. Throughout the years—thirty of them!—Editor Granice fearlessly weathered the breakers of public criticism and opinion! The editorial columns of his paper were untrammelled, and his editorial utterances were always in the best interests of the whole people. His best efforts were put forth for the development of the resources of this valley, and of the placing before the world its varied inducements to home-seekers.

When, with the folding away of the Year Nineteen Hundred Fourteen in the great Book of Eternity, the Grim Reaper inscribed "Finis" indelibly to the life-work of Mr. Granice, the temporary management of his paper thought best, during the months pending the probation and settlement of his estate, to refrain from editorial expressions of opinions.

The Index-Tribune had been too positive, too assertive, too sincere and unswerving in its principles in the past for policies now seemingly variable, because perchance, soon changed.

We believed that whatever policies were espoused by the Index-Tribune in the future, it should be the sole prerogative of the successor of Editor Granice to outline—leaving firm and stable the foundation which he builded.

Thus does our staunch little craft sail forth to greet and receive greetings from its readers on its thirty-sixth birthday. During the coming year's voyage, we trust it will gather a gratifying cargo of good wishes; of sincere, unbroken friendships, and of the cordial support which is ever a stimulus to honest endeavor.

May the winds be gentle and the waters kind!

Vineburg Happenings

Al Griffith, one of our pioneer orchard men, transacted business in the metropolis on Wednesday last.

Emilo Batto, one of Sonoma Valley's popular teamsters, paid a visit to friends in the metropolis last Sunday.

Mr. and Mrs. Walter Bundschu are touring the northern counties and Sacramento Valley, and will be absent for a week or so.

Cedric Cutter, a rising young business man of San Francisco, was the guest of his parents, Mr and Mrs. E M. Cutter, over the week-end.

Vineburg was deserted Sunday afternoon, as most of the people attended the picnic given by the Sonoma Drum Corps at Oak Grove All report a fine time.

The Misses Helen and Florence Forni, popular young pupils of Huichica School, are spending part of their vacation as guests of their aunt, Mrs. Thomas Lentz, in San Francisco.

The following guests are being entertained at the John Batto residence this week: Mrs. D. Banchero of Napa: Mr. and Mrs. T. Schmidt, Mrs. August Figone and Miss M. Ghio of San Francisco.

Howard R. Brown, manager of New Vineburg Inn, was the guest of honor at a reception given by the Splivins Social Club in Vallejo, last Tuesday evening. Mr. Brown speaks highly of the manner in which he was received by his Vallejo friends.

Chas. F. Groskopf was the guest of his parents at "Whispering Pines," Sunday last. The many friends of this well-known horseman will be interested to learn that he is now engaged "breaking" a bunch of colts for U. J. Martinelli, at the latter's ranch on the Petaluma road. Sure, at breaking horses, Charlie is an expert, believe me!

Some of the planking on our railroad crossings in this vicinity is in a very poor condition, and an accident is liable to happen at any time It is not the fault of the section foremen, as they have not the material with which to make repairs. The roadmaster has inspected the crossings several times, but inspecting is one thing and repairing is another.

The Misses Mary Ghio and Mary Batto were guests of Mrs. Morris Levy, at Hotel Mervyn, Glen Ellen, Wednesday.

Among the consignments to arrive at Batto's Spur, this week, were 6,000 box shooks. 30 tons alfalfa hay, 1500 sacks barley, 500 sacks mill feed, 400 sacks wheat, and 300 sacks alfalfa meal.

We understand that in the foot race at Oak Grove, Sunday, the hundred yard dash was won by a Vineburg man, but that he had to pay the bet.' Wise Sonoma! That was a case of "Heads, I win—tails, you lose."

One day last week, Fred Batto was at the wheel for a motor party to Petaluma, comprising Mrs. W. J. Hiser, Mrs. E. Beesler and son Joe, and the Misses Jessie Hiser and Emily Batto All enjoyed a pleasant time in the "Egg City"

All of my fair assistants are on their vacations, and I cannot find out anything about "The Five O'clock Tea Club." But I suppose when they do return, all in a bunch, 'Like Brown's cows when he only had one," I will find out too much about it. Leave it to the fair ones.

Mr. and Mrs. Fred Batto, Miss Emily and Masters Frederick and Herbert Batto were the guests of Norman Heggie on an auto trip in his new Ford machine on Sunday last The party visited all the principal cities and towns in the northern part of Napa and Sonoma counties, returning home via Santa Rosa and Bennett Valley, after making a run of one hundred and fifty miles.

Little Anabel Rose returned, Sunday last, from a nice visit of a week with San Jose relatives.

Miss Emma Merriam, accompanied by a lady friend, is enjoying the week here, the guest of friends.

Mrs F. Helberg was greeted by a number of her friends, Sunday last, at the picnic held at the Oak Grove.

Miss Julia Brosman, of the Fair City, is here for a few weeks at the home of her cousin, Mrs. Erhard Steiger.

A number of San Francisco friends are being entertained at the home of Mr. and Mrs. A. Moebes the past week.

Mrs. Jas. A. Landsborough returned to Locust Grove, Thursday, having had a splendid visit with a number of relatives and friends in the bay cities.

Miss Loraine Wise, of San Francisco, has been enjoying the past two weeks at the home of her brother-in-law and sister, Mr. and Mrs. James Tate.

Mrs. Frank Thompson, after an absence of several months in San Jose on account of ill health, is at home again, much to the delight of her family and friends.

Petaluma relatives and friends have as their guests for the past two weeks, two of our popular young ladies, the Misses Lena and Bertha Keechler of McGill s.

A goodly number of San Francisco folks spent Sunday last at the Embarcadero Hotel, Clifford Harbarge, a former Schellville resident, being one of the party.

HAPPY JACK.

A party comprising Mr. and Mrs. L. H. Green, Mrs. George Breitenbach, Miss Hazel Gies, Dorothy Lycette, Florence Green, Ethel Evans; Messrs. Geo. Leiser, Ralph Busby, and Phil Zero of Boyes Springs motored to Dillon's, Sunday, and report a day of rare jollity. The quartet of merry girls evidence that fact by the fashionable tanned complexions since shown. A stop was made at Petaluma, where some of the party called on Rev. Father Leahy. From Mrs. Green, we learn that the health of the former well-beloved pastor of the St. Francis Church is steadily improving in health. This assurance will be happily received by the pastor's friends throughout the length and breadth of the valley.

Visitors in town cordially welcomed, Sunday, were Mr. and Mrs. P. J. Muller and family, Mrs. J. and Miss Juliette Burges, all of San Francisco. The party motored up from the summer home of the Mullers at Novato.

District Deputy Grand Master Samuel Horton paid an official visit to Sonoma Lodge, I. O. O. F.. Tuesday night. Mr. Horton, who is a member of Healdsburg Lodge, No. 64, expressed himself warmly in commending the splendid showing made bp the local branch of the great brotherhood. The visiting officer was mightily pleased at his reception, and carried away pleasant memories of this his first trip to Sonoma. The gentleman, by the way, is an enthusiastic adherent of the fraternity of "The Three Links," and has reached the highest pinnacle to be attained in the order, having taken the nine degrees.

Miss Dorothy Gise, of Benicia, arrived here, Wednesday evening, for her long-anticpated visit at the H. F. Bates home. She will remain a fortnight.

There was much rejoicing on the part of Mr. and Mrs. Wm. Trudgen and family on the receipt of the wired message, announcing the arrival of Miss Elizabeth Virginia Winston, Wednesday evening, at the home of her happy parents, Mr. and Mrs. Ralph P. Winston (nee Miss Beth Trudgen), at North Bend, Oregon. Elizabeth Virginia weighted the scales with eight healthy pounds of babyhood, and with her proud young mother sends loving greetings to the well-remembered at home, and we, at home, speed affectionate congratulations in return.

City Trustee and Mrs. Charles McDevitt and family motored to Dillon's Beach, Thursday, with Emil Andrieux at the wheel.

Mrs. Arthur W. Fisk (nee Miss Marjorie Buchan) arrived at the home of her mother, Mrs. Katharine Buchan, Saturday night last, for an extended stay. Mr. Fisk has again accepted a position with with the Southern Pacific Company, his run being on the main line, necessitating an absence of several days at a time. Hence, Mrs. Fisk will spend many of her lonely days with home relatives and friends.

Details of a quiet wedding have been somewhat late in becoming known to the public, owing to the care with which the young people guarded their movements. The contracting parties were Miss Beatrice Fay Butler, of Glen Ellen, and W. H. Schellbach, of Agua Caliente. The nuptials were celebrated at Napa, on Friday, July 9th, by Rev. Wylie, pastor of the Presbyterian Church. The newly wedded twain will leave in a couple of weeks for a trip through Northern California, Mr. Schellbach being a traveling salesman for typewriters. Later they will return to make their home at Caliente. The young couple are wished all good fortune by their circle of friends.

An enjoyable event of Saturday evening was the dinner given by Mr. and Mrs. J. Newman to celebrate the birthday anniversaries of their little daughter Henrietta and Master Roy Holsworth, of San Francisco. Following the sumptuous repast, the hours were spent very pleasantly in games, dancing and other pastimes. Those present were: Mr. and Mrs. Meyerstein, Mr. and Mrs. S. Schocken, B. Baer and H. Jackson, all of San Francisco; Mr. and Mrs. A. W., Miss Irma and Leland Adler, Mrs. M. and Victor Erleback, Florence, Roy and Melton Holsworth; Dave Eraldi and Daniel Newman.

Miss Elizabeth Lewis, the bright little daughter of Mr. and Mrs. S. B. Lewis, is her happy, vivacious self again, since she is able to resume the activities dear to children. While walking with her mother on the billside, Tuesday afternoon of last week, Elizabeth slipped and fell, striking her left elbow on a stone, and spraining the member. The dear little maid has quite recovered from the injury.

A benefit entertainment and dance for St. Mary's Church, Glen Ellen, will take place at Chauvet Hall, Saturday night, July 31st. A fine program is in course of arrangement, which is to include numbers by the children who are under the instruction of Miss Frances Dougherty of San Francisco. These clever, excellently-trained young people have charmed Sonoma Valley audiences on several occasions. Other productions, of equal merit, will make up the evening's entertainment. Dancing, refreshments, and a general social time will make this a to-be-pleasantly anticipated function.

Admission, always free.

SONOMA BASEBALL CLUB REORGANIZED

After a lay-off of one month, the Sonoma ball team will start to play ball again Sunday, July 25th, when they "hook up" with the O. R. E. Club, of San Francisco. The visitors are reputed to be very fast ball players.

This will be good news to Sonoma Valley baseball fans, for our city would be a very quiet place on Sundays were it not for the ball games.

Sonoma will have a very strong team in the field tomorrow, and the boys expect "to bring home the bacon."

Game will be called at 2:15 P. M. sharp.

Monday night, District Deputy Milton J. Sobbe, of Glen Ellen, installed the recently elected officers for the ensuing term of Sonoma Parlor, Native Sons of the Golden West.

Board of Equalization

The Trustees of the City of Sonoma will meet on the second Monday in August, 1915, to wit:

August 9, 1915,

at 10 o'clock, A. M., at the City Hall in said city, and sit as a Board of Equalization and equalize the Assessment Roll, as provided in Section 872 of the Municipal Government Act, and in Ordinance No. 68 of said city.

The Board will continue in session from day to day until all the returns of the City Assessor shall have been ratified.

All persons desiring a reduction in the valuation of their property must make and file with said Board a written notification therefor, verified by oath, showing the facts upon such reduction is sought.

Kerosene	vs.	Wood and Coal
Heat concentrated on the cooking, not spread through the room.		Heating up the kitchen when it's already 90 in the shade.
Ready, like gas—full heat in a minute.		Bothersome — waiting for the fire to burn.
Adjustable heat—a slow fire or a hot one.		Difficulty in getting the right heat.
Heat only as long as you need it.		Waste of fuel before and after actual cooking.
A clean, cheap fuel—easy to handle.		Wood and coal to lug—dirt and ashes.

of my article, accompanying illus- Mr. and escribes two of the many are tour inferior eggs that are the and f result of carelessness in hand- g before shipping, or to ignor- ance on the part of the producer or his local marketing agent, and will help to reveal the source of some of this seven million dollar loss.

through one of the many devious channels by which a large number of eggs reach the ultimate consumer. Its condition indicates that it received better care than is usually the lot of these tramp eggs. This also was, when laid, a perfect egg, such as illustrated in Figure 1 (reproduced before in these columns but again shown for the benefit of the reader), and was injured

Figure 1—A Perfect Egg. Notice the small air-cell and well-shaped yolk.

when fresh by washing in sour milk or sour milk whey in order to remove dirt or to give it an unnatural whiteness. If this egg had been put in storage instead of several times passing from place to place under favorable conditions it would at the same age—one month—be perfectly black and rotten.

The illustration (Figure 5) is intended to represent a large air cell, a weak, watery white or albumen with a yellowish tinge and a yolk which, through lack of support in the weak white, has flattened out and fallen to one side ready to adhere to the shell; and the yolk usually bears a white spot.

If, when fresh, this had been subjected to heat, the white would resemble that of an egg, the shell of which had been cracked sufficiently to allow the air to enter; the white of such an egg at first appears full of bubbles about the size of a pin head. These grow until at the end of say two months, they have united into an envelope causing the entire white to look like water

Shrinkage, caused by deterioration and not, as in most damaged eggs, by evaporation, takes place rapidly. This applies to the egg that has been washed as well as the one that is further damaged by heat.

The yolk is tender and easily broken, even when fresh, and consequently this egg is not good for frying and poaching. It is not unfit for cold storage but should not be put down in water glass nor preserved by any other method

It is rated as a poor shipper, but when perfectly fresh it might be classed as of fair quality for use at once in the immediate neighborhood where produced.

Figure 6 represents the view before the candle of an infertile fresh number one or perfect egg that has been subjected to heat for several days. The illustration is

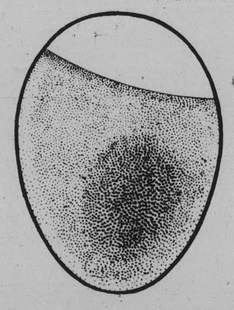

Figure 6—Heated infertile egg Another egg that cannot be stored.

intended to show a very large air cell. The size of the cell will vary according to where it may be at the time of heating. On the moist coast, it would be smaller, and about the size as illustrated if in the dry interior. In the illustration it is intended to show a very red yolk more or less dented in several places and to represent the yolk running into or blending with the white. The yolk has also settled toward the small end of the egg. If put in storage, the yolks of fully seventy-five per cent of these eggs will stick to the shell.

The effect on a fertile egg is similar, except that it will show live blood veins or dead rings of a somewhat darker hue.

The inferior eggs described above are two of many grades that might be included in this article.

In December, at the show of the San Francisco Poultry, Pigeon and Pet Stock Aassociation, I disp ayed sixty varieties of eggs, all of distinct types such as these; but there are numerous variations of these distinct types, some showing a less degree of injury and others that are even more complicated.

In our next installment, we will describe the method of handling eggs in cold storage, including some suggestions for improvement. We will also present illustrations of damaged eggs that become worthless or of little value while in storage. These will help to demonstrate that the poultrymen of California must take the initiative in stopping the seven million dollar loss.
